Split Face Corner Tip

A common question we're asked is: "You carry 12" (or 10") split face block. Why don't you carry 12" (or 10") Split Face Corners?

To keep on bond, corners should be built with 8" block as shown:

12" wall using 8" x 8" x 16" Corner & End Split Face

Governor Cuomo Signs Safety Measures into Law

Fire Sprinkler Information - On August 5, the Governor signed legislation that will require any builder of a one or two family residence, having less than three stories, prior to entering into a contract with a buyer, to provide the buyer with written information detailing the benefits of and costs associated with the installation and maintenance of an automatic fire sprinkler system.

If a buyer decides to include an automatic fire sprinkler system, the builder would be required to install a system. This law will take effect 120 days after its enactment date.

New in Stock at

GRILINE MAGNETIC 25' SAVAGE TAPE MEASURE

Features two magnets allowing it to easily connect with any metal object; nylon coated for extra durability; the 1-1/16" wide dual sided blade features large 3/8" markings for quick readings of both elevations; the scale is graduated in 1/16" increments and clearly marked every 1/8" from the 1' mark and up; the wide blade marks off feet as well as inches.
