

Universal Pier Block

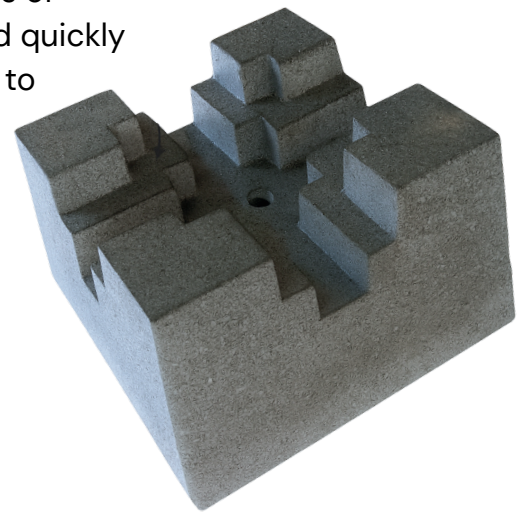

Versatile. Durable. Built for a Variety of Projects.

Introducing the Universal Pier Block

This all-in-one precast deck support system fits multiple sizes of dimensional lumber, helping both contractors and DIYers build quickly and confidently. Made with durable concrete, it's strong, easy to install, and suitable for a wide range of projects.

Key Benefits:

- Fits 4x4s, 6x6s, and 2x6s
- Works with wood or metal posts
- Optional adjustable brackets
- Simplifies inventory and reduces sizing errors

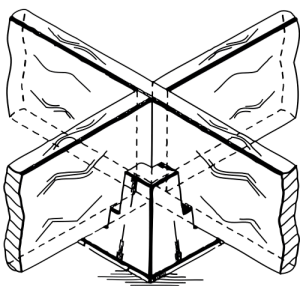

Product Specs:

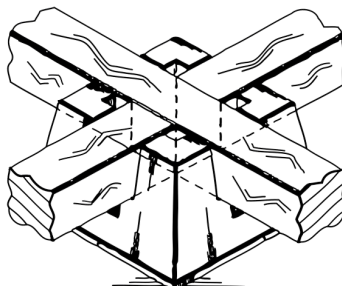

- **Dimensions:** 12" x 12" x 8" tall
- **Quantity:** 64 Blocks/pallet
- **Weight:** Approx. 64 lbs each
- **Concrete Strength:** Approx. 3,000 PSI
